## Plot

The book started with silver shoes that came in the post. Coriander loved the shoes so she wanted to wear them but her mom Eleanor said no because she had a similar pair and then she was stuck in them for 17 years! She couldn't take them off!

Coriander took the shoes and wore them and they came off easily. Then, when she was on a walk, she disappeared and came back. Next, her mother died and her dad got arrested for smuggling people. She had a step mother and father. The father was very cruel and then queen Rossmore was trying to get Coriander's mother's shadow. She believed that if she could steal her shadow it would give her eternal life. In the end Coriander found her dad. Her step sister Hester had a baby and they lived happily ever after!

## Conclusion
